Career Objective

I am a Fresher Full stack web developer. My expertise lies in both front-end and back-end development, enabling me to create user-friendly and responsive web applications using React and its associated ecosystem. I enjoy building interactive web applications. My focus is React (Next.js). I am known for my strong communication skills and ability to collaborate effectively within a team. I am passionate about continuous growth as a developer and eagerly seek opportunities to make meaningful contributions to projects and teams.

Featured Projects

MansaExpress Admin

an e-commerce platform functionalities has been meticulously developed, employing cutting-edge technologies such as Next.js, TypeScript, clerk-Auth, Zustand, Tailwind CSS, Stripe, and other innovative tools. This fully operational MansaExpress Admin showcases a sophisticated integration of modern web technologies, enabling seamless user experiences and robust functionalities.

Some key features includes.

- Fully Responsive design using Tailwindcss.
- I have integrated functionality to create, update, and delete categories, products, colors, and sizes.
- Sign in and sign out authentication with clerk-Auth
- I have integrated Dashboard to see graphs of revenue etc
- Payment checkout handled by stripejs.
